One-Way Street Enforcement Will Start Next Week

Granite City's new one-way street system is in the process of being launched as street department workers this week finished the posting of Iowa street and signs as they are posted, no arrest tickets for violations will be issued before next Wednesday.

Confusion became evident yesterday at Iowa street and Namoki road. Iowa street now is one-way northbound from 20th street to Namoki road.

The new one-way system will be:

- Benton street northbound from 20th to 27th.
- Cleveland blvd. southbound from 27th to 20th.
- Edison avenue northbound from 18th to 27th.
- Iowa street northbound from 20th to Namoki road.
- Washington avenue southbound from 22nd to 20th.

The changes from the present system are the extension from 24th to 27th street of the one-way limits; adding State street and Iowa street to the system and reversing the direction of Washington avenue between 20th and 22nd streets.

Hospital Campaign Expected To Hit Minimum Goal Tonight

Attainment of the minimum goal of \$1,000,000 for St. Elizabeth Hospital's fund campaign for modernization and expansion is hoped for at tonight's third report meeting for the General Solicitation Division.

Dr. Felicia Koch, division chairman, will be aided by Campaign General Chairman Delaney Davis, in compiling reports from the hundreds of volunteer workers expected to attend the "appreciation meeting" at 8 p.m. in the Venice-Madison American Legion Home on Broadway in Venice.

Davis said progress reports will be made by other divisions, including the Large Industries Division, which he and Co-Chairman Lyle F. Guiley head, and the Advance Gifts Division headed by Harold R. Fischer.

It's New Budget Time

\$2,022,820 is Spent by City in Past Year

Budget building time is again upon the Granite City council and indications during Monday night's meeting were another "whopper" is on the way.

City Comptroller Robert Stevens told council members his annual report should be ready for the June 8 session, and its presentation usually signals the start to complete the budget for passage no later than the end of July.

Council members have noted that work agreements with employees will be at a minimum this year, but that \$428,101 of the city's reserve funds were spent during the fiscal year that ended April 30.

The city's total income for the year was \$1,568,719, while expenses amounted to \$2,022,820. The April 30, 1956, balance of \$277,832 was whittled down to \$301,731 last April 30.

Sales Tax Fund Hit

Hardest hit was the sales tax reserve fund.

Its balance on April 30, 1956, was \$350,474 was income during the year amounting to \$380,882. But, \$464,322 was taken out of it during the year to bolster other city funds as the city went hit hard by a \$250,000 drop in income due to tax rate limitations ruled by courts.

With the sizeable transfer from the sales tax fund last month, only two general operating accounts showed deficits on April 30—dog catching, \$136, and the contingent account, \$391. One special account had a large deficit—maintenance of sewers, \$23,027.

Of the city's \$2,022,820 operating costs for the 1956-57 fiscal year, \$1,364,112 was expended for general operations and \$658,707 for special accounts, which included \$428,101 for the new aerial ladder truck and the \$110,865 for the special street and drainage improvements.

Where Sales Tax Went

The transfer from the sales tax fund and \$96,000 from excess commissions went to the following general accounts:

- Fire department, \$30,000; street department, \$66,000; general government, \$48,000; city hall, \$12,000; police department, \$170,000; inspection department, \$36,000; dog catching, \$60,000; contingent account, \$80,000; city planning, \$60,000, and school crossing guards, \$21,000.

Expenditures from the general fund accounts in the 1956-57 fiscal year were—

- Fire department, \$297,967; water, \$16,772; street department, \$273,260; street lighting, \$23,790; pumping station, \$18; general government, \$130,773; city hall, \$30,554; police department, \$327,169; inspection department, \$36,530.
- Elections, \$2257; sanitation department, \$141,441; interest and judgment, \$3229; dog catching, \$11,198; contingent, \$19,633; tax commissions, \$4,841; city planning, \$10,468, and school crossing guards, \$21,217.

Special Fund Spending

The special fund disbursements for the year, exclusive of transfers, follows:

- Illinois Municipal Retirement, \$42,921; working cash, none; parking meters, \$37,632; arterial street maintenance, \$100,872; unclaimed rebate, none; civil defense, \$25,712; sales tax, \$66,303; maintenance of sewers, \$31,211; special street fund, \$25,282.
- Motor fuel tax projects, \$172,370; special fire department equipment fund, \$24,565; various city improvements, \$110,665, and air pollution, \$2569.

The total balance for the general fund on April 30 was \$69,969, while the balance of the special accounts was \$431,762.

Davis Named County Coroner

Edges Burke of Alton By Vote of 24-22 by County Supervisors

Leonard R. Davis, Granite City former mayor and a funeral home director, was elected as Madison county coroner by the county board of supervisors yesterday at Edwardsville.

He edged Thomas J. Burke, Alton funeral home director, by a 24 to 22 vote in run-off balloting. Five candidates were in the first round of voting by board members.

Davis, who served as mayor of Granite City for 16 years, will succeed Dr. W. W. Billings of Alton, who resigned effective June 1 because of age and health reasons. The term expires Dec. 2, 1963.

Called upon for a few comments after the election, Davis admitted that he has been asked if he had the necessary qualifications for the job.

He said, "I think I have the basic foundations, education and knowledge of people. I think I can do a good job. I will be an active coroner, and I will cooperate with all of you, even those of you who did not vote for me."

24 Votes Needed

A bare majority of 24 votes was needed to win election. In the first round, Davis totaled 22 votes, Burke had 19, O. Carson King, another Alton funeral director, tallied four, Dr. Edward Mullivill of Alton had one and Dr. F. W. Sokolowski of Alton polled none.

Immediately after his resignation, Dr. Billings gave a strong endorsement to Burke. Recently he had made his resignation dependent on an agreement by the board to name Burke to the

Bi-State to Cut Area Service If State Aid Denied

Twenty percent reduction in bus service on the East and West Granite lines and elimination of the Pontoon Shopper run will be undertaken by Bi-State Transit System Sept. 1 unless state financial aid is received from Illinois and Missouri, according to action taken by the Bi-State Development Agency's board of commissioners yesterday afternoon.

In addition increases in fares will be initiated. The rate boosts, however, will become effective July 3. The commissioners authorized the transit system to file application for rate increases and service cutbacks with the Interstate Commerce Commission early in June if neither Illinois nor Missouri has approved subsidy grants by May 31.

Transit system officials told the Press-Record that service cutbacks in the Quad-City area have not yet been worked out in detail but that they will be in all probability, consist of reduction in the number of hours the buses operate on daily schedules, thereby effecting a reduction in mileage.

A spokesman said the Pontoon

Smoke Kills Two Persons in Early Morning Blaze

2 Men Overcome By Paint Fumes In GC Last Night

Neglecting to turn on an exhaust fan while painting an auto in a closed garage here almost proved fatal last night for two young Edwardsville men. Serious results were averted when a co-partner in the auto body shop happened to stop by the building about 9:15 p.m.

Mike Beyer, 21, an employee of Dempsey-Adams Auto Body Shop, 1534 Eighteenth street, and his brother, Larry, 18, were spray painting Larry's auto when both were overcome by paint fumes.

Falling to the floor in a semi-conscious state, one of the men apparently turned over a bucket of paint which virtually covered him. Both were treated at St. Elizabeth Hospital and released.

Jack Dempsey, a co-partner in the firm, said Adams knew the men were painting the car and stopped at the garage by chance. Before entering the building, he spoke briefly with Patrolman Richard Bell, who was checking buildings in the area.

Bell, who was still outside when Adams entered the garage and found the two men on the floor, quickly radioed for the fire department's inhalator truck and rescue squad. The pair was partially revived before arriving at the hospital.

Dempsey said Mike reported for work today as usual. "He often offered to come back to the building last night and clean up the mess."

Mrs. Jo Ann Todd Near Escape, Goes Back to Arouse Son Upstairs

A 64-year-old woman groped her way through a smoke-filled duplex house at 1619 Edison avenue early Tuesday morning, aroused her neighbors who escaped without injuries, then died a few minutes later in an unsuccessful attempt to rescue her son from a second floor bedroom. The son also died in the fire.

The victims were the mother, Mrs. Jo Ann Todd and her son, Steven Lawrence Winn, 40. Both died of smoke inhalation. Neither was burned.

The fire, believed to have been caused by faulty wiring, burned a hole in the floor of a downstairs living room, destroyed a sofa and chair and charred the walls of the living room. Damage was estimated at \$2500 to the building and \$1500 to contents by Fire Chief Earl Fronberger.

Mrs. Todd was found dead on the floor in the second-floor bedroom of her son in what obviously was an apparent attempt to rescue him after she already had been downstairs and only a few feet from escape, according to evidence pieced together by police, firemen and the dead woman's relatives.

Police See Flames

Police received their first call on the fire at 1:37 a.m. Officers William Harris and Glen Wright answered the call and said that when they arrived they saw flames through the front window and on the front door. They were met by Albert Paul, 1621 Edison avenue, whose family lives in the other part of the old "88-Brick" duplex house and who, meanwhile, had called the fire department.

As flames apparently had engulfed the front part of the downstairs section of the house, police went to the back of the house where Harris kicked in the door and then another inside door. He was unable to enter because of dense smoke.

As Harris kicked open the second door, a small dog fled to freedom.

Firemen arrived at this point and equipped with oxygen masks entered the house.

They found Winn lying on the floor in back of his bed and his mother only a few feet away. Firemen used oxygen in an attempt to revive them until an ambulance arrived. Both were pronounced dead on arrival at St. Elizabeth Hospital.

Went Back Upstairs

Officials said that evidence indicated Mrs. Todd had made her way from her second-floor bedroom to the main floor where she had called out, either to the family living in the adjacent Lonto apartment, Mr. and Mrs. Albert Paul, or to her son. In either case, Paul said he was awakened by voices and got his family, including two small children, out of the house. He called the fire department.

Apparently, firemen conjectured, Mrs. Todd made her way back upstairs in an attempt to arouse her son. The fact that he was found on the floor a few feet away from his bed indicated that he had awakened but had been unable to escape the suffocating smoke. Mrs. Todd apparently was overcome shortly after she entered his room.

The theory of faulty wiring was advanced by members of the family, although firemen and police reported the fire apparently started in the sofa in the living room. The south side of the interior of the house was damaged. There was no damage to the outside of the building.

Adjoining Rooms Undamaged

There was no damage to the Paul apartment next door.

Mrs. Todd was born in Nian-gua, Mo., and had been a resident of the Quad-City area 12 years. She was a member of the Grace Baptist Church. Her husband, Farrell Todd, preceded her in death in 1953.

She is survived by another son, Vernon Winn, of Glen Carbon; a daughter, Mrs. Marjorie Ferris of 638 Delmar avenue, Granite City; two brothers, Lonto Covington of Springfield, Mo., and Rev. Cleo Covington, Lebanon, Mo.; sisters, Mrs. Archibald (Lena) Cook of Springfield, Mo., and Mrs. Ida Cheatum of St. Louis, and five grandchildren.

Both Mrs. Todd and Winn were

Madison Recreation Program Begins June 5

Monday, June 5, marks the beginning of the first Madison city-wide summer recreation program sponsored by the Madison school board in conjunction with the Madison County Economic Opportunity Commission. The 11-week program will require no special funding by the city. The program's success will depend heavily upon adult volunteers needed to supervise playground activities and specialty projects such as crafts classes, hobbies, music classes, drama and a physical fitness class.

Stanley Serwatka, a Madison junior high school coach, has been appointed overall program director by Raymond Bragich, Superintendent of Madison schools. In addition to Serwatka, eight college students will be employed working with 50 Neighborhood Youth Corps personnel in the program. Additional volunteer personnel will be needed as supervisory aides, playground supervisors and to head specialty projects. The program will offer recreational activities at seven different sites four days a week, Monday through Thursday, reserving Fridays for special events.

Planned special events include a trip to Busch Stadium for the St. Louis Cardinal baseball game and visits to area cultural historical sites. Monday through Thursday, six hours of activities will be divided between two age groups: 9 a.m. to noon will be devoted to children 6-10 years old; and 1 to 4 p.m. will be for those 11-16 years old.

Sites for the program are: Dunbar school and the West Madison Memorial Center, Madison junior high school, Madison Memorial Center, Madison high school outside recreational areas, the playground adjacent to Lee Wright homes and the recreational grounds on Twelfth street.

Support for the program has been pledged by the Madison Junior Service Club and ministers representing congregations of Madison churches.

Negotiations are currently under way for use of the Granite City Army Depot swimming pool as a part of the program, according to David Walker, deputy director of the Madison county EOC.

A three-day training program for participating NYC personnel, student employees, and volunteers will be held May 31 through June 2 at the Madison junior high school. Training sessions began a 9 a.m. and all interested volunteers are urged to attend. Walker, EOC director and Serwatka, program director, will conduct the training sessions.

Walker told the Press-Record that the Madison summer recreation program will be successful if enough volunteer personnel are found in the community. He added that no federal funds will be needed to finance the project, and that the EOC part in the program is to coordinate existing resources of the community and not "bring in" new or additional resources.

as day, but the contractor doing the remodeling thinks we can get by with eight fixtures and save about \$260," the chairman said.

He said the lighting recommended by the power company would cost \$495 from H. R. Schanot Painting Co. for painting the new offices. The only other bid was \$685 from George Clyde Painting & Decorating Co.

In Bartosiak said the Painters Union has refused to permit the city painter to paint the rooms, since the work is classified as new construction, not maintenance work. Alderman Fry said he knew of no such restrictions being included in the work agreement when the city painter was hired.

More MFT Funds For April Will Be Allotted to GC

Granite City will get more motor fuel tax funds for April, the city council was advised Monday night in a letter from the department of highways.

The April allocation of \$4,961 was questioned last week by Alderman Robertson, who noted it was much lower than the amounts received for previous months. At that time, he called for an explanation, and the only one offered was that the sale of gasoline must have declined throughout the state in April.

However, Monday night the explanation was sent by the state, pointing out that a delay was encountered in transmittal of \$4,500,000 and that the state would make up the difference to the city for this month's allocation.

The April amount of \$4,961 was far below the March total of \$17,700 and the \$24,270 for February and \$20,539 for January. The allocations are based

Senate Appropriates Port, SWIMAPC Funds

The Illinois Senate Tuesday approved a bill appropriating \$106,740 for the Tri-City Port District for the 1967-68 biennium.

The bill was introduced by State Senator Paul Simon (D) Trop. Illinois has provided annual operating funds for the port district since its inception.

Also approved by the Senate Tuesday was a bill appropriating \$75,000 for the Southwestern Illinois Metropolitan Area Planning Commission.

Local Man Attends Midwest Gas Meeting

Steve Conkovich, 2802 Dogwood drive, returned home yesterday from Chicago, where he participated in the 47th annual Mid-America gas sales conference, held in the Edgewater Beach Hotel.

The local man, a manufacturer's representative, for Charniglow products was accompanied by Laclede Gas Co. executives, Charles Davidson, general sales manager, and Rex Bannister, vice-president, both of St. Louis.

Kiwanis Club Hears Talk on Air Travel

Within 23 hours flying time one can reach the farthest destination from any given departure point in the world, Granite City Kiwanians were told Monday evening by Jack Carr, senior sales representative for Pan American Airways.

The guest speaker addressed 25 local Kiwanians and their wives at a "Ladies Evening" event, held in the Rose Bowl restaurant. He was introduced by Melvin T. Gillie, club president.

Commenting that the airplane is one vehicle that knows no barriers, Carr pointed out the jet age has made a substantial impact on our social and business life. "Our entire political picture has been re-shaped, due to the point of destination now less than 24 hours away," he said.

Carr said his company handles international flights only, with planes assigned different routes each trip. He cited an example of the diversified flights made by a single jet passenger aircraft within one month's time, as: 10 to trans-Atlantic crossings; three polar flights from the west coast to Europe; six from Seattle to Alaska; 25 from the west coast to Honolulu; four from Honolulu to Sydney, Australia; two from Honolulu to Singapore; and one round-the-world flight.

The official said that Pan American executives are working continuously to lower fares on overseas travel. He commented that present round trip fares from St. Louis to London are at the lowest rate, costing \$408 per person; \$385, St. Louis to Paris; and \$483, St. Louis to Rome. A group of 15 persons, traveling together, can make overseas trips considerably cheaper, Carr reported.

The program concluded with a film, entitled "Wings to Germany," which gave a panoramic travelogue through the Black Forest, Bavaria and other tourist attractions.

Decorations for the dinner tables were arranged by Mrs. Gillie and Mrs. Michael Tondas. Guests receiving prizes included Mrs. Edward Moore, Mrs. Gillie, Mrs. Tondas and Mrs. William Herman.

Hopeful of fine weather this weekend, managers of Wilson Park pool and the area's two private swim clubs are completing plans to open the three facilities Saturday, it was announced today.

The 1967 swimming season at the public pool in Wilson Park will get under way at 1 p.m. Saturday with the pool to remain open until 9 p.m. on Saturday and Sunday, according to Harold Brown, park superintendent.

The facility will be closed Monday, re-opening from 1 to 9 p.m. Memorial Day (Tuesday). The pool will remain closed until 1 p.m. Saturday, June 3, when the regular operating hours from 1 to 9 p.m. will be observed daily throughout the summer months.

Filling operations at the pool began earlier this week, the park official said. He cautioned that the facility will be opened this weekend only if weather permits, with temperatures 72-degrees or above.

Mike Jesse, YMCA physical program director, and Tri-City Red Cross water safety program chairman, will manage the Wilson Park pool this season. Brown announced. Assistant manager will be Clark Niepert.

Paddlers Opening
Paddlers Swim Club members will inaugurate their tenth year of operations with opening day ceremonies, starting at 1 p.m. Saturday, at the site of the win. Olympic-size pools, 2131 Johnson road.

Keith Parker, Coolidge junior high school coach, who will manage the pool facility again this year, today announced that practice sessions for the club's competitive swim team will begin Monday, June 5. Team coach this year will be John Evenden, who also will serve as assistant pool manager. A senior water safety instructor, Evenden is a former eight-oar competitor on the Paddlers squad.

Parker said that swim classes will begin Monday, June 12. Participation in the instruction series for beginners, intermediates and advanced levels, is open to club members and non-members. Those interested in registering for classes, may call Parker at TR 7-2069, or contact him at the pool Saturday.

Arlington Hours
Arlington Swim Club, located within golfing facilities east of Granite City, will initiate its second full season of operation at noon Saturday. The pool will be

open to members from noon until 8 p.m. daily throughout the summer months.

Pointing out that the club has the area's only heated pool, Avery Schermer, president of the Golfside Development Corp., said the facility will remain in operation daily, regardless of temperature.

James Parker will serve as pool manager again this year, Schermer announced. He added that memberships in the private club still are available.

MORE ABOUT David Named

post. State's Atty. Leon Scroggins ruled, however, that the county board could not be bound to the condition.

Coroner for the past 24 years, Dr. Billings said he gave up his medical practice in 1961 after he suffered a blood clot in the artery of the heart. He added that he continued to serve in office because of the help and efficiency of his wife and 17 deputy coroners.

Dr. Billings alluded to David when he said one of the candidates from the Tri-Cities has treated some board members to a few steak dinners and his balls, but that should not influence your vote."

Voting was conducted by secret ballot after strong objections from some members. Roger Delator, assistant supervisor of Namekoi township, insisted that the residents of the county had a right to know for whom their representatives voted.

A roll call vote gave Bill 15 approval to the secret ballot election, with dissenting votes coming from David supporters.

The election left the Atlanta Georgia area without a county political officer holder and Robert Miller of Alton complained, stating that residents of that urban area were without representation in one of the eight county offices.

Carl Buchler returned the fire, claiming he could remember when there were no county office holders south of the Hartford canal. He added that the elected officers represent all of the people of the county.

Robt. White, 5 Months Old, Dies Tuesday

Robert Amos James White, five-month-old son of Mr. and Mrs. Robert White, 2029 Louis street, died at 5 p.m. Tuesday at St. Elizabeth Hospital. The infant had been ill with pneumonia and was admitted at the hospital two-and-a-half weeks ago.

Besides his parents, surviving are the maternal grandparents, Mr. and Mrs. Roy Wiggins, and paternal grandparents, Mr. and Mrs. Clyde White, all of Granite City.

Funeral services were held Tuesday. Arrangements are given elsewhere in this issue.

Reward Girl Who Found Purse, Returned \$300

A "good samaritan" award was received this week by Girl Scout Julie Ehret, 10 daughter of Mrs. Alice Ehret of Belleville, and granddaughter of Alderman and Mrs. Emil Ulaniski, 364 Second street, Madison.

She received a diamond and pearl lavalier as a reward for returning a purse containing personal papers and \$300 she found at the St. Louis airport.

The purse belonged to an 83-year-old California resident who had already departed on a flight to her home. Airport authorities returned the purse with Julie's name, and this week the necklace was received.

Everyone gives watches for graduation gifts. Why don't you be different?

What's so special about watches, anyway? They're all made up of mainprings and hairsprings. A balance wheel. And a lot of other delicate mechanisms. They have to be. It's those things that make a watch run. Be it fast or slow. Or maybe not at all.

So why give someone an ordinary watch? You could give an Accutron® timepiece instead.

Accutron has no hairspring. No mainpring. No balance wheel. They're been replaced by a tuning fork. (That's in the center of our Spaceview model.)

The tuning fork does everything ordinary watches are supposed to do. Measure time. Only it doesn't do it accurately. By vibrating 360 times to a second. And sending the hands around the dial so precisely, we can guarantee monthly accuracy to within a minute. About 2 seconds a day.

Could a gift be more perfect?

Hostess chapter was the Piankeshaw Chapter, and an Indian theme was used with four huge totem poles as the center of attraction.

The next meeting will be held in Springfield in May, 1968.

Winningest Car Favored In Memorial Day Races

Put one of the most consistent drivers in the winningest car in the history of the International Motor Contest Association and you have the dynamic duo of Jimmy Moughan and Hector Honore cast in the favorite role for the sprint car action at Tri-City Speedway on Memorial Day night, May 30.

Moughan, who hails from Springfield, was the 1964 IMCA rookie of the year. He was runner-up in the sprint car standings in 1965-66. His enviable record soon caught the fancy of veteran Pan, Ill., car builder and owner, Hector Honore.

This year the two combined forces and the merger might be the hottest racing combination to hit the ovals of the Midwest in recent years.

Moughan is no stranger to racing patrons in the Granite City area. He cut his racing teeth in this St. Louis area and progressed to sprint racing through the modified ranks.

Honore is a legend in himself. The famous "Black Deuce" has won 425 feature races, 745 heat races and holds 200 track records from the Gulf of Mexico to Canada. Nine association championships are held by the Deuce. The car was driven in the past by such greats as the late Don Branson, Bobby Grim, Gordon Woolley, Scratch Daniels, Spider Webb and Pete Folse. It has the most outstanding speed record compiled by any one car.

Equipped with a Chevy stock block conversion with 327 cubic inch dimensions, the machine is fuel injected with all the racing extras popular today. The secret to the "Black Deuce's" success is the mechanical wizardry and

Saturday, the 13th, despite gloomy skies and clouding the treets, Little Grass Lake yielded an 8-pound bass to William Ryan, Maryville.

State Says 'No' to Further New Sidewalk on Nameoki Rd.

Broken and sloped sidewalk on the east side of Nameoki road between Richmond avenue and Johnson road may prove costly to the city in lawsuits, Alderman Johnson, new chairman of the street committee, informed council members Monday night.

Johnson said he had met with state highway officials and representatives of the contractor earlier Monday with no results. He called for support of the council and for a letter of protest to be forwarded to the state highway department. If the state doesn't replace the sidewalk, the city will have to do the job, Johnson said.

"It also will be the responsibility of the city to replace all traffic control signs removed during construction, and that will be costly," the chairman added.

Alderman Fry said he had noted during construction that heavy equipment went over the sidewalks, causing some of the breaks, and that perhaps the city could pinpoint responsibility on the contractor.

"I don't think we can get to first base, but we'll keep trying," Johnson commented. He asked City Clerk Pendleton to write the letter of protest.

St. Elizabeth's School To Graduate 45 Sunday

A class of 45 eighth grade students will be graduated from St. Elizabeth's parochial school this week, with the commencement program to follow the eight o'clock Mass Sunday morning.

Top honors among the graduates went to Mary Leik, daughter of James Leik, 2244 Gary avenue, who was named the recipient of a four-year scholarship at St. Teresa Academy in East St. Louis. The eighth grade honor student received the award for academic achievement attained in an examination.

Sister M. Lucina, school principal, said all pupils attending Catholic elementary schools are eligible to take the high school scholarship exam. Throughout the country, a total of only 3% of those taking the test are awarded scholarships to a Catholic high school, she said.

The award winner, whose main interests lie in the fields of English, journalism and dramatics, has written and directed several school plays. She is hoping to expand her activities in these areas while attending high school and college.

Pupils who will receive diplomas on Sunday, are: Margaret Barth, Stephen Beatty, Renee Best, Ann Bickhaus, Robert Carroll, Kathleen David, Michael DeKuntz, Patricia Doolley, Tom Eaton, Theresa Friederich, Deborah Fuchs, Jane Gabriel, Darlene Gaudette, Jeanne Gibbs, Patricia Guth, Lisa Hartman, Raelyn Hom-

AWARDED SCHOLARSHIP

200 Attend 1967 Chamber Playday

The 12th annual Tri-Cities Chamber of Commerce "playday" attracted 200 members Tuesday and Tuesday evening at Sunset Hills Country club. Arthur Koepfer and Edwin G. Schmitt were general chairmen. An outdoor buffet was enjoyed, and a large tent was set up on the grounds to accommodate the gathering.

Golf winners were Harold F. Karandjeff, low gross; Robert Maddox and Maynard Davidson, tied for second low gross; Edwin Reinagel, Les McIlroy, David Knollman, tied for low net; Ray Kangel, nearest to pin on No. 2 hole; Howard Drey, nearest to pin on No. 16; and Ralph Frey, longest drive of day.

Horseshoe winners were Milton Mathews, most ringers; Rodger Ward, most games won; and James Louis, consolation prize. Fishing champions were Leo Hall, most fish caught, and Doc Taylor, greatest total length of fish.

Egg throwing winners were the team of David Smith and Reinagel, first, and Barry Loman and Richard Fry, second. Special awards went to Carl Roach, John Emanuel and Ed O'Connor, and card champions were the team of Dr. Val Geroff and Lyle Tatur, first, and Charles Simmons and Bob Hackman.

Chairmen were Earl Lewis, golf; Pat Morrison, horseshoes and fishing; Bill Terrell, egg throwing; Fred Barr, special awards; and B. C. O'Neill, games.

Marriage License Issued

A marriage license has been issued in St. Louis to John W. Jordan of St. Louis and Patricia A. Landfried of Granite City.

City Curfew Law Calls For Chieft to Sound Horn

A suggestion for updating the city's code of laws brought out a unique interpretation of Granite City's curfew law during Monday night's council session.

Classified as obsolete was the section which was quoted as requiring the police chief to "sound a horn" at 10 o'clock each night to signify the start of curfew time.

Police Chief Veitner, who was present, commented, "I don't even have a horn," and there was no move by the council to buy one.

Actually, the ordinance is Article II, Section 27 of the city code, and paragraph "27.203 Signal" states: "It shall be the duty of the chief of police to have sounded a proper signal at ten P.M. each evening to indicate the curfew."

Alderman Nann stressed the need to revamp city laws to get rid of those no longer needed to correct errors made in 1920.

Question:

What can you get 19,000 copies of for \$12?

Answer:

A 14-word Press-Record Want Ad.

Bids to be Sought for 325 Replacement Parking Meters

Granite City will seek bids to replace 325 worn out parking meters in the center of the downtown business district.

The present meters, which have been in operation since January 1954, are showing signs of deterioration and no new clock movements have been purchased since 1959.

The city has nearly 700 meters in operation, and to get new movements and coin box doors would cost about \$30 per meter. Receipts from the meters in 1966 totaled \$38,857, while fines amounted to \$3454 for an overall

total income of \$47,311, an average of \$153 a day's operation.

Recommendation for the bid call was made by Alderman Whitmer, chairman of the Police committee, who said that the 325 meters to be replaced could be salvaged for use in fringe areas of the parking meter zone.

The report by the police department showed 332 meters to be in good or fair condition and 306 in bad condition.

The real test of any man's worth is his influence on youth.

Aggressive GC Squirrel Pursued Its Bite Victim

A woman who prefers to remain anonymous advised the Press-Record this week that the squirrel who bit her on the ankle was not being fed but actually followed her from the back porch of her home to the front porch and then rushed her, biting her above the shoe top.

It was reported last week by the city humane department that several reports of squirrel bite have occurred in the city in recent weeks, and that in most cases the person bitten was trying to feed a squirrel.

The cagey animals, which usually feed when someone approaches, are becoming numerous in most sections of the city, and it is almost impossible to trace them for capture and tests for rabies.

The woman bitten on the ankle said she already has taken her eighth anti-rabies inoculation and has several more to go.

"I had taken my husband to work and was trying to get into the house through the back door when I spotted the squirrel on the back porch. He didn't want to go out the way, so I decided to go around front."

"I was on the front porch and in the process of unlocking the door," she related, "when the squirrel rushed up and bit me."

"My idea of telling you about my mishap is to let people know they shouldn't trust the little animals or they might be going through the same agony I am with these shots."

Tax Collections To Begin June 12 In Granite City

Tax collections will get under way in Granite City June 12 and will continue until the middle of August. E. R. Rich "Pat" Rich, city treasurer, announced today. Rich said tax bills for a total of \$7,272.75 in taxes for the 1966 year will be mailed by June 8. His office plans to collect taxes for 50 days, he said.

Meanwhile, tax collections have started or will start soon in Venice, Nameoki and Chouteau townships where taxpayers will be charged for payment of a total of \$4,938.586.

Charles Lexow, Jr., collector of Chouteau township who began collections early this month said he will close out his books on local collections June 3. Chouteau township taxpayers still may make payments until then at Lexow's home, 720 Old Alton road.

Special collection periods also are planned June 3 at the township office, May 27 at the Hartford Village hall and May 31 at the South Roxana fire station. Chouteau taxpayers were billed for a total of \$905.16.

Frank Reidenberger Jr., Venice township collector, said he expects bills for Venice taxpayers will be mailed by the middle of June and that a tentative date for beginning collections has been set for June 19. Venice township taxpayers have been charged with payment of \$2,767.12.

Bills to Nameoki township taxpayers will be in the mails by next Wednesday and collections will be started Friday, June 2. Nameoki taxpayers may pay bills at the Granite City Trust & Savings Bank, according to town collector Gene Rotter. Nameoki taxpayers will be charged with payment of \$1,262.27.

Charged with Speeding Finley Lamb or Manitou, Ky., was issued an arrest ticket Tuesday night by Granite City police who charged him with speeding along Nameoki road.

Mrs. Kacaleff recalled visiting many libraries with Mrs. Harlan to make comparisons of the facilities and services.

Mrs. Kacaleff said Mrs. Harlan has been on the board since 1922. Mrs. Kacaleff since 1948. Mrs. John McElwain 1950, Mrs. Fogle 1957, Mrs. Lewis 1959, Mrs. Pashoff 1962, Mrs. Williams 1964, Mrs. Shabo 1965 and Mrs. Hilt, 1966.

Mrs. Revell, Mrs. Lewis and Mrs. Fogle also spoke. Mrs. Fogle's birthday was observed by the group.

Mrs. Kacaleff presented Mrs. Harlan with a silver bowl from the board members. The mayor closed the meeting by praising Mrs. Harlan's efficiency in library board matters.

U. of I. Prof is Studying Ways of Replanting Teeth

Improving chances for successfully replanting teeth that have been accidentally knocked out is the goal of a study to be made by Dr. Maury Massler, assistant dean and professor of dentistry in the University of Illinois College of Dentistry at the Medical Center campus, Chicago.

This research project entitled, "Replantation of Teeth," will be supported by a \$26,750 grant for the first year of a three-year study from the Dental Institute of the National Institutes of Health, the main research arm of the Public Health Service.

In announcing the award, Surgeon General William H. Stewart said, "We hope that this research will tell us why some replanted teeth survive and take root while others do not so that we can save a number of teeth now lost even though replanted soon after accidents. This is one of a number of common dental problems receiving attention today. When these problems are solved and good preventive dentistry is practiced, people will be able to enjoy sound, natural teeth throughout their lives. We

believe this goal can be realized."

Dr. Massler hopes to find out how long the tooth can remain out of the mouth and still be successfully replanted.

He also will determine which methods work better in adults and in children, and whether the tooth should be kept wet or dry, hot or cold until the patient reaches the dentist.

In addition, he will evaluate several treatment procedures now in use. The results of replants performed under known conditions by dentists, including pedodontists (dentists specializing in the care of children), will be compared with those obtained by Dr. Massler in carefully controlled animal studies.

SIU-SW Guest Artists, Ticket Plan Announced

In continuing its Guest Artist Series next year, SIU-SW has adopted an admission policy "to help meet the rapidly advancing costs involved in presenting a series of high quality."

The announcement was made by Prof. Edwin B. Warren, head of the music faculty here, who went on to say the 1967-68 series "is probably the finest (and most expensive) ever offered by the university."

The series will begin Oct. 27 with the Gregg Smith Singers. The Lenox Quartet, a string ensemble, will play on Dec. 1. Also secured for next season are duo-pianists from Germany, Alfons and Aloys Kontarsky, Jan. 18, 1968; William Fierens, South American classical guitarist, Feb. 16; and the Center for New Music, in residence at the University of Iowa, April 5.

Prices established for the series of five are: \$7.50 for faculty, staff and the general public; \$5 for students; and \$10 for patrons, whose support will be acknowledged on the printed programs. If there are seats not subscribed for the series, Warren said, single admissions will be available at \$2 each.

Tickets will be ready for distributing early in October. Checks or money orders should be sent with season ticket orders to SIU's Fine Arts Division, Edwardsville, Ill. 62025.

Mrs. Evenden Named To State CD Council

The appointment of Mrs. Valerie Evenden of Granite City as a member of the newly-formed Illinois Women's Civil Defense Council was announced this week by Miss Bernice Carey of Chicago, council president pro tempore.

Mrs. Evenden was nominated to the council by Granite City Civil Defense Director Victor H. Koenig, with the appointment confirmed by Col. Donovan M. Vance, Illinois civil defense director.

Mrs. Evenden is a member of the Press-Record news staff.

A deputy and assistant director for the Granite City area since 1958, Mrs. Evenden joined the local CD organization in 1963. She was first assigned as assistant director for the Nameoki area. Between 1958 and 1963, she served as secretary to the local civil defense director and Civil Defense Advisory Board.

During the same period, she was employed on a part-time basis, as manager of the local CD office. Currently, she is assistant director in charge of administration and home defense.

Mrs. Evenden is a graduate of the Federal Civil Defense Staff College in Battle Creek, Mich., where she received a certificate in civil defense administration and general operational procedures. Presently, she is a member of the Boy Scout Emergency Preparedness committee.

Purpose of the newly-formed council, according to Miss Carey, is to promote interest in, knowledge of, and coordinate action in all phases of civil defense throughout Illinois. Quarterly meetings will be conducted in various locations within the state. The Women's CD Council is affiliated with the Illinois Civil Defense Council.

Local Sailor's Ship Destroys Shore Batteries

Fireman John Petras, U.S. navy, a son of Mr. and Mrs. Mike Petras jr., 702 Twenty-sixth street, was involved in a gunfire exchange with shore installations near the mouth of Song Ma River in Vietnam, aboard the guided missile armed destroyer U.S.S. Joseph Strauss.

His ship was providing coverage for the destroyer Hubbard, which was stopping enemy cargo and ammunition vessels moving south. Shore batteries opened fire on the destroyers, coming as close as 25 yards. The Strauss moved to avoid being hit as she opened fire with her five-inch fifty-four gunmounts on targets in the vicinity of Sam Son. After several minutes of firing, the Strauss moved seaward. As a result of the firing, two large shore batteries were destroyed and secondary explosions were observed.

GC Getting Ready To Start Special Census this Year

Granite City may soon be starting upon a special, off-year census, according to a notice received Monday from A. Ross Eckler, director of the U. S. Bureau of Census, Washington, D. C.

No starting date has been set for the population count, which the city feels is necessary to comply with a recent circuit court order by Judge I. H. Streep, III, to redistrict the city with seven wards instead of eight by December 1968. The court order has been challenged with an appeal by the city, but the case is not yet scheduled on the Appellate Court docket.

Granite City is hopeful to re-organize eight wards with a population topping 50,000. The 1960 census set the population at 40,073. In 1950, the city's U. S. census count was 29,465, and a special census was conducted in 1955, setting the figure at 34,500.

The letter from the director of the Census Bureau acknowledged receipt of the city's \$3200 down payment. A representative of the regional office in Chicago, Theodore F. Olson, is to visit the city in the near future to make arrangements with Mayor Parry for the signing of an official contract.

Olson's office will supervise the census, with the local persons to be hired to do the counting.

Carbondale Instructor To Write State Drama

Christian H. Moe, associate professor of theater at Southern Illinois University—Carbondale campus, has been commissioned to write the official Illinois Sesquicentennial drama, according to announcement by Archibald McLeod, theater department chairman.

The SIU dramatist was chosen for the assignment by the Sesquicentennial Commission's art division which is headed by Mrs. Helen Ticken, secretary of Chicago.

The play will not be a pageant but rather an authentic drama of significant episodes in the 150-year history of the state, Moe said. Settings and properties will be symbolic and simple with multiple projection of art and architecture slides to enhance visualization of the various periods. Folk music indigenous to Illinois and songs popular in the state's history will be another element.

Stolen Auto Found Abandoned after Mishap

An auto owned by Lester C. Flanery, 2909 Cayuga street, reported stolen at 2:35 a.m. Tuesday from the front of the Good Neighbor tavern, was found abandoned at 3:40 a.m. in the alley behind the home of Malik Hagopian, 1681 Chestnut street, where it had struck Hagopian's fence and knocked over a tree. The car was unlocked, there was no key in the ignition and the wires were intact, police said.

Battery Charge Filed

Raymond Huff, 39, of 2163 Cleveland blvd., was charged with aggravated battery at 10 a.m. Tuesday. The warrant was signed by his wife, Mrs. Letha Huff.

Miss Dineff Awarded Theater Scholarship

Patricia L. Dineff, daughter of Mr. and Mrs. Ted Dineff, 2954 Madison avenue, recently was awarded the first Margaret Lee scholarship to the Black Hills Playhouse, Vermillion, S. D. Miss Dineff is a charter member of Alpha Omicron chapter of Zeta Phi Eta, women's national speech fraternity.

Miss Dineff, a junior majoring in speech with a minor in music at the Southern Illinois University-Southwestern campus, has participated in 24 musical and dramatic productions since 1962.

She has served as a construction crew member, chorus member, stage manager and performance pianist in shows as "Agamemnon," "The Master Builder," "Oklahoma," "Come Blow Your Horn," "The King and I," "Othello" and "The Fantasticks."

Judicial Board Formed For SIU-SW Students

The Student Senate at the Southern Illinois University-Southwestern campus has approved a judicial board to serve as an appeals body for students and organizations objecting to administrative decisions. The board was established to act in an advisory capacity to Ralph Ruffner, Vice-president of the board's recommendations will rest with Ruffner.

The board will be composed of three students and three faculty members. It is to begin functioning next year. Senate President Terry Profit said he feels recommendations of the judicial board will be considered at the same level as recommendations by administrative bodies, but that final approval of the board's recommendations will rest with Ruffner.

COMPASS READING being taken by John Dickson (left) of Makanda, as his fellow Southern Illinois University forestry student, Daniel Sturmon of Granite City records the findings for a special field course assignment in the SIU experimental forest.

Classes Held in Forest For GC Student at SIU

Their classroom is the forest and their desks are the nearest tree stumps.

In such an environment a group of 35 Southern Illinois University forestry students are learning the practical side of forestry. Included is Daniel E. Sturmon, 2434 Edison avenue.

Most of the students are living at SIU's Little Grassy facilities and using several hundred acres of land in the university forest about 10 miles from the Carbondale campus for a classroom and laboratory.

Almost daily they go into the forest to plant, thin out, prune and measure trees, and to practice the fundamentals of forest protection, management and outdoor recreation planning.

Attending spring camp is a requirement for graduation from the SIU forestry program and constitutes a full term of practical field courses.

Each day the students put in eight hours either in the field or in camp, gathering and tabulating information from individual or group studies in the woods and writing reports. Organized recreation activities, including swimming, volleyball, skeet and rifle shooting, softball and horse-back riding, are available in the evening.

Spring camp began with a field trip to Mississippi, Louisiana and Arkansas to visit wood production and management areas, lumber mills and forest recreational developments. Other field trips to private, state and federal forest developments in adjacent states are an important part of the camp curriculum.

"America, the Beautiful" was sung by the audience, and Richard Grotenfend was the pianist.

Dr. Stanley Maer spoke on Anderson's scouting history, and Edwin Menke, junior district executive, gave the challenge.

The charge was given by Rollin Horn. The Eagle award was presented by advisor Wilbur Shelton.

A reception immediately followed the ceremony.

Legion, VFW Plan Sale of 13,000 Poppies in Area

A sales goal of 13,000 poppies has been set by Quad-City veteran organizations for Friday and Saturday when the poppies will be offered for sale by auxiliary and post members, beginning at 8 a.m. each day.

The annual Memorial Poppy Days will be observed jointly by Tri-City American Legion Post 113, Venice-Madison American Legion Post 307, and the Veterans of Foreign Wars Post 1300 and their respective auxiliaries. Poppies are made by hospitalized, disabled veterans, and funds obtained from their sale are used for rehabilitation purposes, child welfare assistance and service work. This year marks the 44th annual sale of poppies by the American Legion.

The Tri-City post drive is headed this year by Frank Toth Jr. of the Legion and Mrs. Mildred Rees of the auxiliary. Twelve auxiliary members will sell poppies with a goal of 5000 sales, Mrs. Rees said.

Chairmen of the Venice-Madison post and auxiliary are Fred Honerkamp and Mrs. Beulah Sizemore. Robert Douglas, commander of the post, said they will try to sell 2000 poppies.

Magnus Leisner, 2222 Washington avenue, and Mrs. Rose Hoffman, 2121 Beckwith street, Madison, will have charge of the VFW and auxiliary sales. Their workers will have 6000 poppies for sale throughout the Quad-City area.

GC Council Overrides Another Mayor Veto

Another veto by Mayor Partney was overridden by Granite City council members Monday night by a vote of 12-to-3. The mayor vetoed the council's action of May 15 in doing away with the Personnel committee.

Alderman Boyd, who had proposed abolishment of the committee, called for overriding the veto.

In his veto message, Mayor Partney stressed the need for a council Personnel committee to interview city job applicants and to negotiate work agreements with city employees. He also noted the committee had successfully carried out a program to provide group insurance for city workers.

Praises Committee
Alderman Whitmer commented that he had served on the committee a short time and was pleased with its method of handling job applications, making recommendations on qualifications "rather than playing politics."

He asked, "Why get rid of a good committee?" There was no reply. In calling for elimination of the committee several weeks ago, Boyd commented it was the most controversial of the entire council. Last year there was a lengthy battle over percentage or across-the-board wage increases for city employees.

Voting to override the veto were Aldermen Dallas, Moerlin, Boyd, Poulos, Green, Boerich, Nomm, Partney, Jarrett, Robertson, Dawes and Johnson. Voting against the veto were Aldermen Whitmer, Rutledge and Fry. Alderman Bartosiek was not present when the vote was taken but arrived later.

Challenges Validity

The validity of action taken at the May 16 recessed council session in calling the second election on a bond issue for sewerage was challenged by Alderman Partney. Mayor Partney replied that the action taken had been based on opinions by the city's legal staff, "and that's good enough for me."

Partney questioned the May 16 motion for reconsideration of a motion of the May 15 meeting that failed to get a majority vote for the suspension of rules for passage on the bond issue election ordinance.

"In asking for reconsideration, it should have come from someone who opposed it," Partney pointed out. He was one of the objectors. Several aldermen, including Moerlin, said the motion was proper in that it was made by Boyd, who had voted with the prevailing side. Nomm, another objector at the May 15 meeting, noted that two aldermen who were present for that session were absent for the May 16 meeting.

No further discussion on the issue was held after the mayor's statement, but later in the meeting, Alderman Bartosiek, chairman of the Special Sewer committee, asked for full council cooperation in supporting the \$1,500,000 general obligation bond issue election on June 18.

Benefits for City
He stressed that separation of storm water from the sanitary sewer lines would benefit the entire city, since during heavy rains, the city's combined sewer system would be overloaded and cannot handle sanitary sewage from the Nameoki area. "Why wait until later and pay more, when we can

qualify for \$1,500,000 federal funds and get the job done at less cost?" he asked.

Appointment of Robert Byrne, 44, of 2312 St. Clair avenue, for 30 days to serve as an operator at the sewage treatment plant, was made by Mayor Partney and is to continue through the vacation period.

Byrne's initial appointment to the \$520-a-month job is to run from next Monday to June 27.

An insurance policy with a St. Louis agency of the Aetna Co. was approved for workmen's compensation and general liability for city property with one year's premium to be \$3043.

Alderman Rutledge, chairman of the Finance committee, said local firms had been contacted, but none had submitted proposals. He added that the premium is \$323 a year higher than on the policy that had been cancelled.

The new policy requires pre-employment physical examinations for new employees and the formation of a safety committee composed of city department heads to study causes of any mishaps involving city workers.

Formation of the committee also was authorized. Several aldermen commented on the difficulty Granite City has had in getting and keeping such insurance and that a functioning safety committee could solve the problem.

Council members approved the bill list intact, commenting only on the \$1570 rental fee for 382 fire hydrants to be paid to East St. Louis & Interurban Water Co.

The city has been in meetings with water company officials over a franchise, and Alderman Rutledge said a study shows the city has paid \$84,639 in the past five years for fire hydrant rental.

Alderman Moerlin, chairman of the Special Pollution Plant committee, reported that the water company is to pay its treatment fee charges as soon as a study is completed on the amount of suspended solids in its sewage.

Council members again noted the hundreds of dollars being spent each month for maintenance of city motor vehicles, and possibly buy or rent a vacant service station with a lift. The only other major item on the bill list was \$10,339 paid to National Disposal Service for garbage - trash collections in May.

The payroll for the last half of May was approved in the amount of \$48,900. Authorization was given for two members of the city's Air Pollution Control Board to attend the 60th annual meeting of the Air Pollution Association to be held June 11-16 at Cleveland, Ohio, with expense allowances of \$250 each for the six-day meeting. Henry Bieniecki, chairman, and Theodore Macios are expected to attend. Bieniecki advised the council of a meeting today in Springfield of the state Air Pollution Control board.

Alderman Boyd recommended that while the commissioners are in Cleveland they might be able to get a copy of the air control ordinance for Allegheny county, Pa., which has proven successful for Pittsburgh.

The unit is conducting search and destroy operations in the Viet Con-infested Central Highlands. The operation which began early in April is named for the famed "Swamp Fox" of the American Revolution. Castle is a cannoneer in Battery B of the 29th Artillery's 6th Battalion.

Collinsville Vietnam Victim Worked Here

Pfc Richard L. Moore, 20, of Collinsville, a helicopter gunner with the 188th Airmobile Unit, was killed accidentally on Wednesday, May 17, at Da Nang, Vietnam. He was a member of Collinsville high school's 1964 championship basketball squad and was employed as a switchman at Granite City Steel Co., before entering the service Aug. 8, 1966. The serviceman had arrived in Vietnam only 17 days before his death. His parents, Mr. and Mrs. Ben Moore sr., St. Louis road at Route 157, were informed that he was sitting beneath van dollies when they fell. The equipment is rigged to helicopters for use in moving materials.

Pfc Moore was graduated from Collinsville high school in 1964. He played tackle on the football team and forward on the basketball squad, which compiled a 28-1 won-loss record in his senior year, losing only to Centralia in the state tournament. Funeral arrangements are incomplete.

3 GC Men Enrolled in Army Logistics Course

THE BOYS' BASEBALL COACH

he helps develop character...

The boys' baseball coach has an important job beyond developing athletic prowess—he helps youngsters become better citizens through baseball.

Whether his team is a part of Little League, Pony & Colt League, Babe Ruth League, American Legion League, or an independent league, his task is the same.

He teaches boys to win and lose gracefully, to be considerate of those with less ability, to be courteous, cooperative, and to submerge selfish desires for the good of the team. Thus, knowledge and skill of baseball are

important to a coach, but they are not his prime qualifications. He must have the ability to impart that knowledge and skill. He must have exemplary character, for boys often reflect his character.

He handles each youngster as his individual character traits indicate he should be handled. And he must have infinite patience, for boys do not grasp ideas as quickly as men.

He has volunteered his time and effort, because he knows that a nation, in order to have better men to make a better world, must begin where men are made—with the boy.

Nonn Flares When His Committee Is Given Brushoff

A Granite City council committee jurisdictional dispute was on the point of erupting Monday night as a resolution was introduced by the Fire and Water committee.

The brief verbal exchange was between Alderman Nonn, chairman of the Ordinance committee, which normally submits resolutions and ordinances, and Alderman Fry, new chairman of the Fire and Water committee.

It ended following the call for vote on suspension of rules which only Basarich and Nonn dissenting and deferral action by Nonn and Basarich on the roll call for approval.

As the resolution was being introduced, Nonn commented to Basarich that he wanted it deferred. (It takes two aldermen to request deferral.)

Fry explained the resolution for a free fire hydrant installation on city property at the Air Products plant had been handed to him at the start of the meeting by the firm's attorney.

Nonn immediately objected, saying that was the job of his committee. Fry offered to turn the resolution to Nonn for him to read it, but Nonn refused.

After the deferral stalled the passage, Fry handed the resolution to Nonn for presentation at the next council session on June 5, and Nonn commented that he didn't know if he would present it or not.

The resolution is for installation of a high pressure Siamese fire hydrant with Air Products to pay the installation cost on city property in the 2200 block of Monroe street. It meets approval of the fire chief.

Collision in Passing
While passing a vehicle making a left turn onto the Kroger store lot, an auto driven by Faye Cruise, 1624 Spring avenue, struck the left side of another driven by John Ritchie, Paducah, Ky., at 5:35 p.m. Monday at Clark avenue and Nameoki road. Both were headed north.

Nephew of Local Man Killed in Vietnam

Joseph Poeling, 2416 Edwards street, received word this week that his nephew, Pvt. Eugene F. Poeling, 21, U.S. Army Infantry, was killed Saturday while in action against hostile forces in Vietnam.

Pvt. Poeling had been in Vietnam just five weeks. The serviceman's parents are Mr. and Mrs. Peter Poeling, who operate a farm in the vicinity of Hamel. According to the local relative, the family was notified Monday evening by an officer from the Western Military Academy in Alton. No details of the action in which Pvt. Poeling lost his life were available.

The infantryman was graduated 1964 from Edwardsville high school. He was employed for two years at Owens-Illinois Glass Container Division, Alton, prior to being drafted into the Army on April 28, 1966. He received combat training at Fort Ord, Calif., and Fort Lewis, Wash., before his overseas assignment.

Pvt. Poeling was born at Port-

Pontoon Village Board to Act on \$13,143 Budget Tonight

Pontoon Beach village trustees are expected to take action at tonight's regular board meeting on the 1967-68 budget and appropriation ordinance, which totals \$13,143. Expenditures anticipated in the current fiscal year exceed last year's budget by \$632.

The new budget was placed on first reading at a special meeting of the board last Thursday. At that time, Village President Thomas Staloff indicated the ordinance will be adopted at tonight's 7:30 session. He also noted that the expanded budget will not result in a tax levy for Pontoon Beach residents.

Principal increases occur in operation of the village's volunteer police department, including a \$4000 appropriation for a

new police vehicle and a \$400 clothing expense item for the police volunteers. Other department expenses increased in this year's budget, include \$280 increase for lighting and heating the building and a \$25 addition for department supplies, including arrest ticket books.
